Point of care testing device for Cardiac, Infection, Inflammation, Nicotine & Drug abuse

Nano-Checker™ 710V Reader

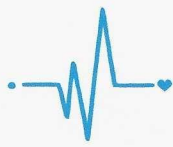

Nano-checker™ 710 analyzes the optical densities of the test line on tested Nano-Check™ devices and converts them to a concentration value. It is a cost effective point of care testing solution for primary screening at emergency rooms and Physician offices. Nano-checker™ 710 is operated by user-friendly software that provides a convenient and efficient data management platform to the use.

Applicable Tests:

- **Cardiovascular Disease Test** : Nano-Check™ AMI 3 in 1, Nano-Check™ AMI 4 in 1, Nano-Check™ AMI Tnl, Nano-Check™ NT-proBNP, Nano-Check™ D-dimer, and Nano-Check™ hs-CRP
- **Inflammation/ Sepsis Test** : Nano-Check™ CRP, Nano-Check™ PCT
- **Drugs/ Nicotine Test** : Nano-Check™ DAT, Nano-Check™ Nicotine

Main Features:

- **Quantitative & Semi-quantitative**
- **User friendly software**
- **Quick and accurate results**
- **Digital imaging system**
- **Internal validity test**
- **Touch screen operation**
- **Bidirectional link to LAB, EDP or LIS system**
- **Portable**
- **Real-time display to printer or computer**
- **Multi analysis Platform**

Test Result - PCT

Test Result - DAT - 10 T

- Large 10.1 inch Coloured touch screen
- A true point of care Quantitative testing solution
- Principle of Immunofluorescence
- Proprietary Image photometry technology
- No calibration or maintenance required
- Self-diagnostic internal quality checks
- In-built thermal printer, can be additionally connected to hospital printer
- Fully portable system working on A/C power with battery back-up
- Store more than 10,000 test results
- Weight <1.7kg
